

Shaftless spirals

Shaftless spirals are available in lengths between 3.000 and 4.000 mm. (material S355JRG3 and stainless steel 304). Spirals may be used for horizontal, inclined, or vertical conveyor purposes. Bechtel also delivers auxiliary spirals for any size. The following table shows the standard sizes of shaftless spirals.

Shaftless spirals (parameters in mm)			
outer diameter	pitch	material height & thickness	Inner spiral
190	150	50 x 20	
190	190	40 x 20	
190	190	50 x 20	
240	235	60 x 25	
240	240	60 x 25	30 x 20
290	290	60 x 25	40 x 20
290	290	60 x 25	
350	355	70 x 25	
350	355	70 x 25	50 x 20

Additional diameters, shaft sizes, or material thicknesses are available on demand.
